

# The Eagle

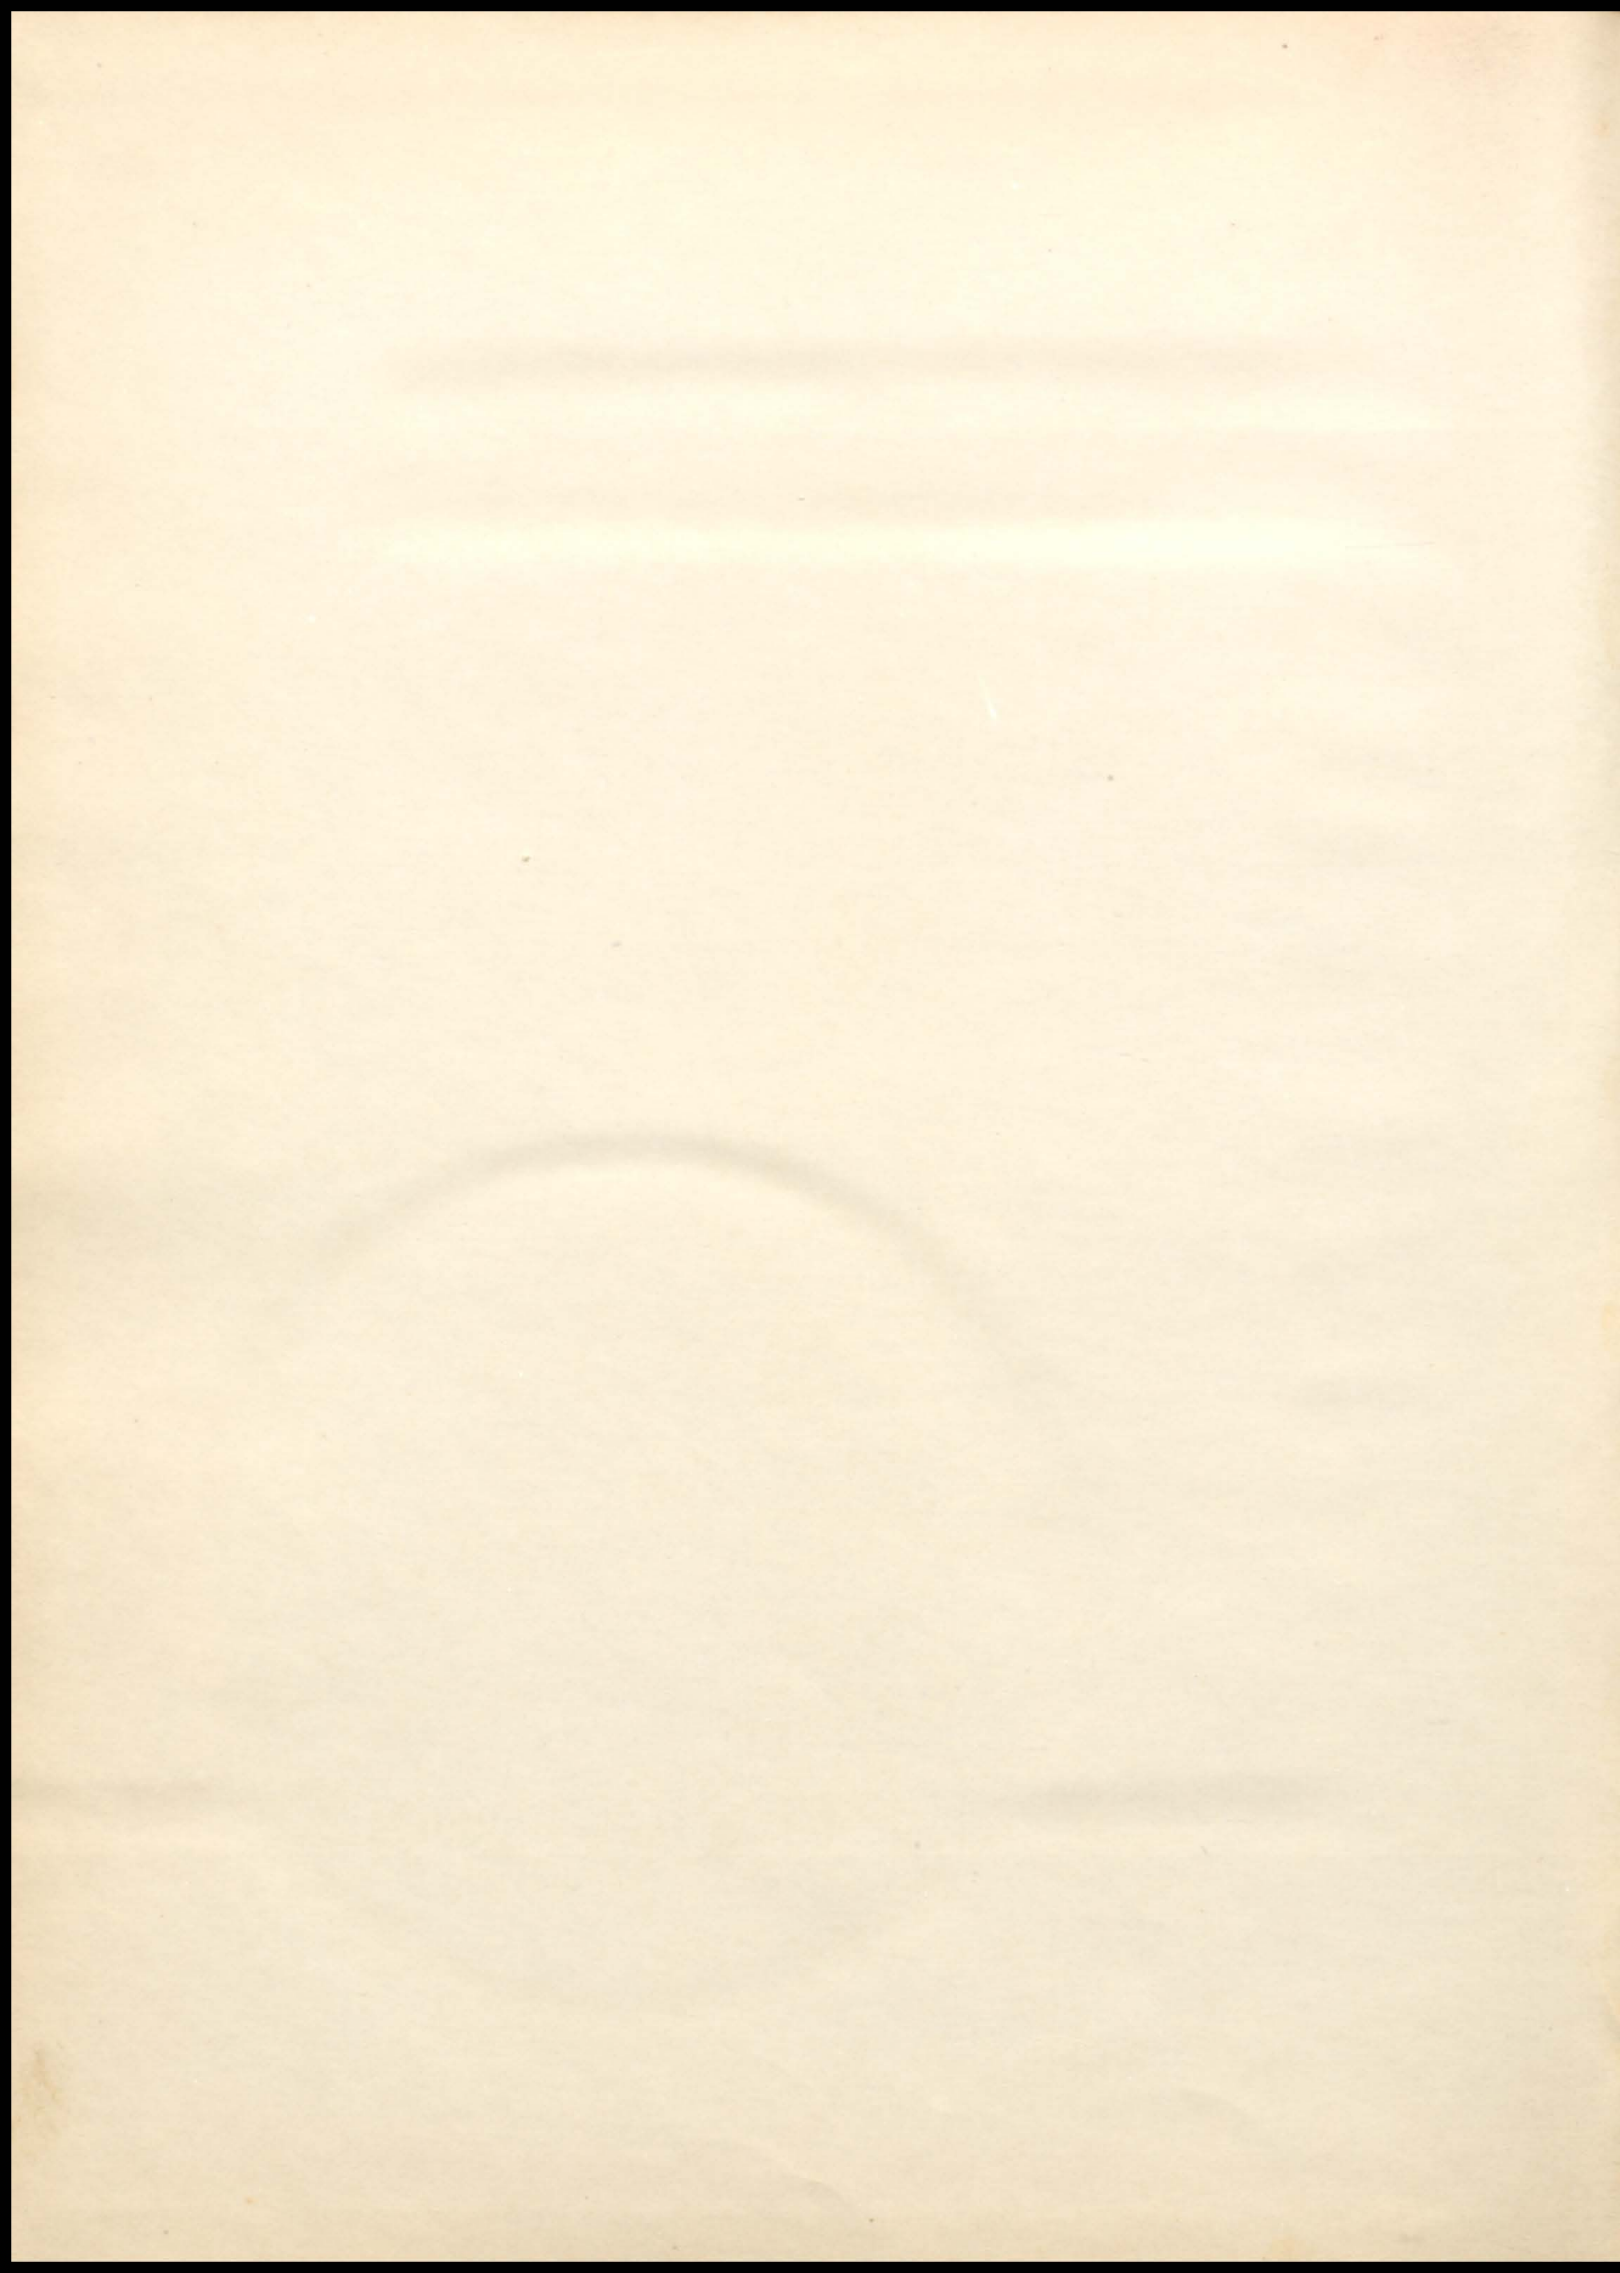

1953

ACKERLY HIGH SCHOOL

SENIOR CLASS '53

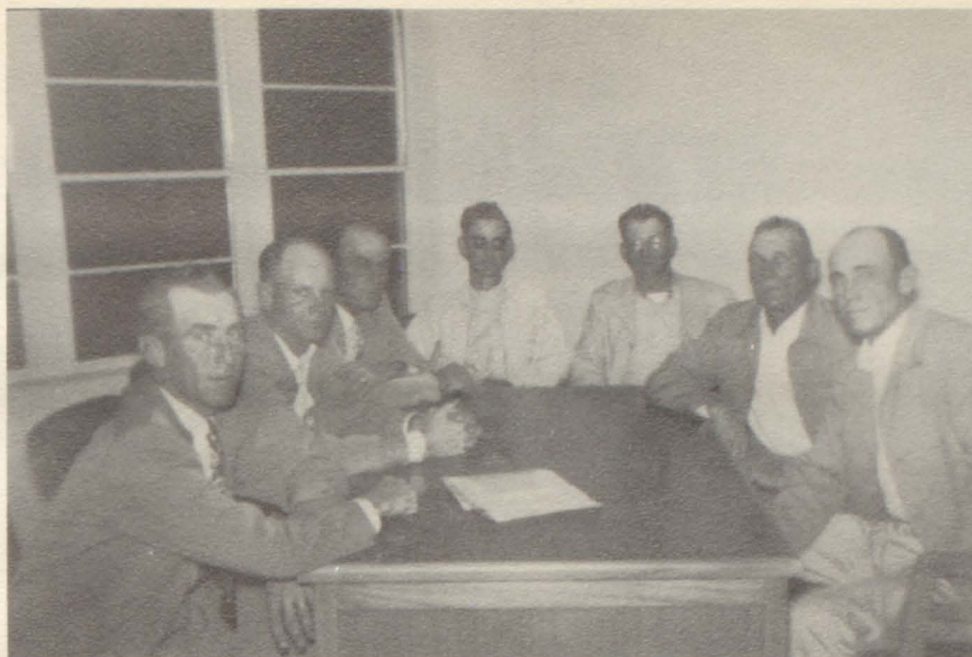

# BECAUSE WE LOVE HIM

.....For his untiring efforts to make our school better, for his kindness to help us with our problems and for his patience as our coach, we, The Eagle Staff, dedicate this, the 1953 annual, to our coach and teacher, M. B. Maxwell, Jr.

#### BOARD OF EDUCATION

Buster Pitts, Jess Billingsley-president, Darrell Smith, Travis Russell, Otto Riethmayer, Clifton Grigg, Floyd Blagrove.

Superintendent, J. M. Glasscock

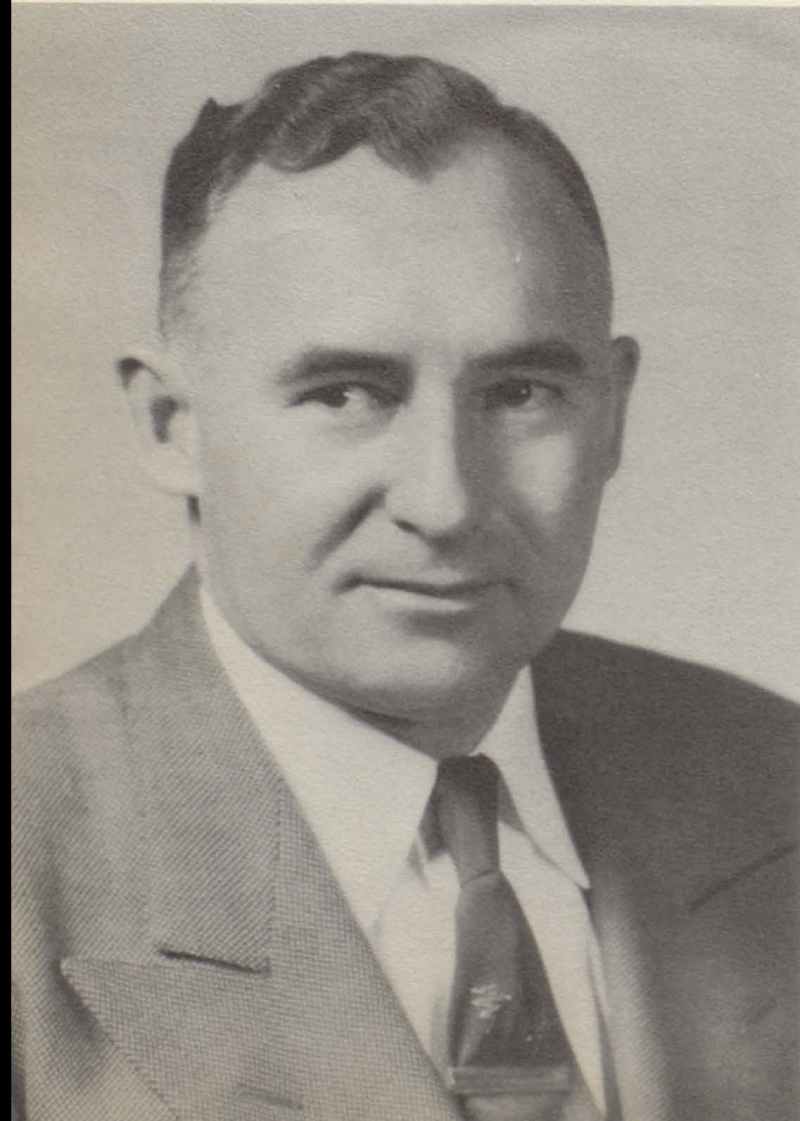

## SUPERINTENDENT'S MESSAGE

To the students of Ackerly:

The 1953 Eagle is a record of your school activities; it will become a storehouse of memories to enjoy in years to come. As you turn through its pages, may you recall the school days of Ackerly High as the "Good old days." We all appreciate the active part taken in school activities by each of you. You have shown good sportsmanship in your competitive game, as well as, other activities. We are, also, grateful to our School Board, Patrons and Friends of our community for our new building. Its conveniences and comfort will be greatly enjoyed. I wish the very best of luck and happiness to each student.

Sincerely your friend,

J. M. Glasscock, Supt.

# AS AMERICAN AS A HOT DOG

The hot dog is a familiar part of American life. Most of us take for granted that when we want one we can get it—almost anywhere. We can depend on the availability of the American hot dog in this country—it is part of the American scene—and we like it.

Electric service, too, is a familiar part of the American pattern. Can you imagine your home—or your work—without the convenience of electric service? Everyone takes the availability of electric service for granted. And you can take its economy for granted, too.

The savings of thousands of people are invested in the securities of Texas Electric Service Company. These savings bought power plants, electric power lines and other equipment—equipment that is operated by the men and women of Texas Electric Service Company to provide you with dependable, economical electric service.

Money, materials and man-power are joined under our American free enterprise system to bring economical electric service to you. This system is just as much a part of the American scene as the hot dog—it's the system which has given us Americans more of the many fine things which make us healthy, comfortable and strong—more than any other country in the world.
