To the students of Ackerly High School:

May this 1955 yearbook of memories be ours to enjoy for years to come. Look at this yearbook to see student life at its best. The best part of our lives are the years spent as students in preparation for responsibilities of adult life.

The aim of education is to teach us rather how to think, than what to think, rather to improve our minds, so as to enable us to think for ourselves, than to load the memory with the thoughts of other men.

May I express my appreciation to you and the entire community for making this a successful and happy school year.

Your friend,

J. M. Glasscock
