

Data in the *Report of 2010-2011 High School Graduates' Enrollment and Academic Performance in Texas Public Higher Education in FY 2012* is given for individual high schools with more than 25 students; however, districts are not required to report grade point average results for individual high schools. If you choose to report only district level data, sum the individual high school data. If data for a district are masked due to small numbers of students, districts should still publish their section of the report, showing the masked data, just as they would publish any data that are masked in the TAPR. Questions about accessing these reports should be directed to the THECB at (512) 427-6153.

Campus Performance Objectives. *Texas Education Code §11.253* requires that each campus improvement plan set objectives based on the TAPR and periodically measure progress toward the performance objectives. These objectives must be approved by the local board of trustees and must be included in the published TAPR.

Our Campus Improvement Plan is located on our school web site!
